

## STRATEGIES FOR SLOW LEARNERS

Mentors provide assignments, past papers, and conduct tests:

| IDEAL INSTITUTE OF TECHNOLOGY:6K<br>COUNT OF SLOW & ADVANCED LEARNERS |              |                                   |                         |                      |
|-----------------------------------------------------------------------|--------------|-----------------------------------|-------------------------|----------------------|
| BRANCH: CSE                                                           |              | YEAR-SEM: 3-1                     |                         | A.Y: 2023-24         |
| S.NO                                                                  | SUBJECT CODE | SUBJECT NAME                      | NO OF ADVANCED LEARNERS | NO. OF SLOW LEARNERS |
| 1                                                                     | R203102F     | RENEWABLE ENERGY SOURCES          | 120                     | 14                   |
| 2                                                                     | R2031051     | COMPUTER NETWORKS                 | 125                     | 09                   |
| 3                                                                     | R2031052     | DESIGN AND ANALYSIS OF ALGORITHMS | 126                     | 08                   |
| 4                                                                     | R2031053     | DATA WAREHOUSING AND DATA MINING  | 116                     | 18                   |
| 5                                                                     | R203105B     | SOFTWARE PROJECT MANAGEMENT       | 121                     | 13                   |
