(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)  
VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

Date: 22-07-2024

## CIRCULAR

All the III & IV B.Tech students are hereby informed that “ONE WEEK TRAINING PROGRAMME ON CATIA” will be conducted on 29-07-2024 TO 03-08-2024. All the interested students can enroll their names with Mrs.P.Anusha, Asst. Professor, Mech Dept on or before 27-07-2024. The details of topics and resource persons are available in brochure displayed in Mechanical Engineering department notice board.

Venue : Mechanical Engg. Department, Computer lab2.

# IDEAL INSTITUTE OF TECHNOLOGY

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

Date : 06-08-2024

## Program Report

**Name of the Event:** ONE WEEK TRAINING PROGRAMME ON CATIA.

**Date/Duration:** 29-07-2024 TO 03-08-2024| 10:00AM to 5:00 PM

**Resource Person:** Mrs. Karra Prasanna Lakshmi,  
Executive Technical Trainer, APSSDC- Engineering & IT Skills,  
[plakshmi.k@apssdc.in](mailto:plakshmi.k@apssdc.in), ph no: 7702393260.

**Name of the Coordinator:** Mrs. P.Anusha,  
Assistant Professor. ,Mechanical Department.

**No. of the students attended:** 54

### **Objective of the Event:**

- To familiarize participants with the software's environment, workbenches (like Part Design, Assembly, Sketcher), and fundamental navigation and file operations.
- To train users in creating precise 2D profiles using various drawing, editing, and constraining tools within the Sketcher workbench.
- To enable participants to create complex 3D solid models and surfaces using features such as pads, pockets, extrudes, revolves, and advanced surfacing tools.
- To provide skills for assembling multiple parts into a complete product, defining constraints, managing interferences, and creating digital mock-ups.

### **Topics covered:**

- **Sketcher:** Creating and constraining 2D geometry as the basis for 3D features.
- **Part Design:** Creating 3D parts using features like pads, pockets, shafts, and grooves.
- **Dress-up Features:** Adding details like fillets, chamfers, and drafts to parts.
- **Assembly Design:** Assembling multiple parts together using constraints, and understanding both bottom-up and top-down approaches.
- **Drafting:** Creating 2D engineering drawings from 3D models, including views, dimensions, and annotations.

# IDEAL INSTITUTE OF TECHNOLOGY

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

## Outcome of the event:

1. Participants can independently create detailed technical drawings and 3D models that meet professional requirements and industry standards.
2. Through hands-on practice, attendees develop the ability to solve complex design challenges and optimize designs for efficiency and performance.
3. Proficiency in a widely used industry software like CATIA enhances career prospects and opens doors to job opportunities in fields such as mechanical design, aerospace, automotive, and manufacturing

  
CO-ORDINATOR

  
HOD

**Topics Covered:**

- Sketcher: Creating and constraining 2D geometry as the basis for 3D features.
- Part Design: Creating 3D parts using features like pads, pockets, shafts, and grooves.
- Assembly Design: Assembling multiple parts together using constraints, and understanding both bottom-up and top-down approaches.

**Outcome of the Programme:**

- Participants can independently create detailed technical drawings and 3D models that meet professional requirements and industry standards
- Through hands-on practice, attendees develop the ability to solve complex design challenges and optimize designs for efficiency and performance.

**Program Committee**

29th July 2024 to 03rd Aug 2024

Organized by  
Department of MECHANICAL

## About the College

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal colleges of Arts and The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honoured philanthropists, educationists, intellectuals and elite of Kaknada such as (Late) P. V. N. Raju, Dr. N. S. R. Sastry, Dr. P. Chitrangeevini Kumari. Ideal Institutions have started from school and blossomed into group of colleges. Ideal Institutions are of its own kind in rendering service to society and value-based education.

During early seventies Kaknada used to have only two colleges. Student community used to suffer a set-back to upgrade their education even to the level of intermediate.

The ideal junior college had been started to cater to the needs of student community. In due course the jr .college flourished into Degree college and P.G courses like M.B.A, M.C.A, M.A, M.Sc and Engineering College.

Now the college is run under the expertise of Dr. P Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students.

Ideal institute of technology is one and only institute which is located in the midst of Kaknada amid mango groves in the lap of Nature.

In this present era of knowledge and technology driven every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to

provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

The faculty members strive to promote a sense of enquiry and questioning among their students. The culture at the institute is one of openness, mutual trust and faith most conducive to unconditional commitment to learning.

Our faculty colleagues thrive on a diet of commitment towards excellence. We believe that learning shall be a joy and teaching a pleasure

The Institute is committed to generate, disseminate and preserve knowledge to work with others to bring this knowledge to face the global challenges. We are committed to provide our students an education that combines the rigours of academics and the grind of application along with the excitement of discovery.

We seek to develop in each member of the Ideal community the ability and passion to work wisely, creatively and effectively for the betterment of mankind.

The Institute extends moral and placement support too. Value based education, mentoring and character building, job oriented short term courses, guest speakers from the industry, visits to industry houses, Entrepreneurship Development Programmes are our main stay Students live in a unique environment that promotes culture, sports, society contributions, and above all the self-governance.

The institute is always abuzz with new ideas and is an exciting place to be, if you happen to be dreamer.

The Institution is having more than 1,50,000 sqft., built up area with well established laboratories in each department to cater to the needs of the students

Besides the Institution is providing transport facility to the needy and also have good sports and canteen facilities.

A team of well qualified and experienced faculty members mould the young students into future Engineers of world.

### About the Department:

The Mechanical Engineering department was established in 2009 with an intake of 60 seats. The lateral entry of students into the department is approximately 20% of the total intake every year. The department comprises well-qualified and experienced faculty, many of whom are alumni of JNTU Kaknada, JNTU Hyderabad, and Andhra University. The faculty continuously strives for Outcome Based Education (OBE) by exploring new frontiers of knowledge, imparting the latest technical expertise to students, and conducting high-quality research, with numerous international publications to their credit. The department is equipped with well-furnished laboratories in core areas such as Thermodynamics, Fluid Mechanics, Mechanical Design, Manufacturing Processes, and Robotics. Additionally, there is a dedicated unit for Mechanical Engineering software, including AutoCAD (2D & 3D), ANSYS, and SolidWorks.

### Objective of the Programme:

- To familiarize participants with the software's environment, workbenches (like Part Design, Assembly, Sketcher), and fundamental navigation and file operations.
- To train users in creating precise 2D profiles using various drawing, editing, and constraining tools within the Sketcher workbench
- To enable participants to create complex 3D solid models and surfaces using features such as pads, pockets, extrudes, revolves, and advanced surfacing tools

# IDEAL INSTITUTE OF TECHNOLOGY

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

Date:12-08-2024

## PROGRAM REPORT

**Name of the Event: A Two Days Workshop on Role of “Generative AI”**

**Dates:** 06-08-2024 to 07-8-2024

**Resource Person:** Dr. Yalla Venkat

Professor, CSE Department, Srinivas engineering college, Amalapuram.

Email: aiml@sriniet.edu.in

Contact number : 9948388000

**Name of the Coordinator:** Smt. M. Jayasree

**Number of students attended:** 136

**Venue:** 203- Seminar Hall

### **Objective of the Program:**

- Understand the Foundations of Deep Learning.
- Explore Computer Vision through CNNs .
- Learn Sequence Modeling with LSTMs .
- Differentiate Between Discriminative and Generative Models.
- Master the Transformer Architecture.
- Gain Hands-On Exposure to Self-Supervised Learning (SSL).

### **Topics Covered:**

- Deep Neural Networks
- Convolutional Neural Networks.
- Sequence Modeling Using LSTMs.
- Discriminative and Generative Models
- Transformers
- Self-Supervised Learning
- Variational Auto-encoders and Generative Adversarial Network.

# IDEAL INSTITUTE OF TECHNOLOGY

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

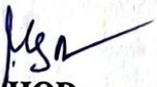

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

## Outcomes of the Program:

- Deep Learning Foundations.
- Computer Vision with CNNs.
- Sequence Modeling with LSTMs.
- Distinguish between models that classify data and those that generate data.
- Self-attention and its advantages over RNNs and CNNs.
- Apply SSL techniques (masked modeling, contrastive learning) to pretrain models.

## **PROGRAMME CONTENT:-**

Role of “Generative AI” focuses on understanding how advanced AI systems can generate content, including text, images, and audio. This program covers the fundamentals of generative AI, including key models, architectures, and applications. It introduces core concepts such as Generative Adversarial Networks (GANs), diffusion models, and large language models (LLMs), along with an overview of ethical considerations and best practices. The program includes hands-on activities like generating images, text completion, and prompt-based experimentation to support practical learning.

## About the College:

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and Sciences during academic year 2009-2010. The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honoured philanthropists, educationists, intellectuals and elite of Kakinada such as (Late) P. V. N. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevini Kumari. Ideal institutions have started from school and blossomed into group of colleges. Ideal Institutions are of its own kind in rendering service to society and value-based education.

During early seventies Kakinada used to have only two colleges. Student community used to suffer a setback to upgrade their education even to the level of intermediate. The ideal junior college had been started to cater to the needs of student community. In due course the jr college flourished into Degree college and P.G courses like M.B.A, M.C.A, MA, M.Sc and Engineering College.

Now the college is run under the expertise of Dr. P. Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students. Ideal institute of technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature in this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

## ABOUT THE DEPARTMENT :

Computer Science Engineering Department was established in the year 2009 with an intake of 60. The lateral entry of the Department is 20% of the total intake. The Department maintains excellence in its infrastructural and academics.

We feel pride in organizing workshops and seminars to the students and also other colleagues for Update of knowledge and betterment of the society.

Since its inception in the department is offering four year B.Tech degree programs in Computer Science Engineering.

We have 24X7 internet facility with a bandwidth of 20 Mbps to cater the need of the academics and non academic activities.

Our faculty encourages each and every student to pursue research and publish paper in reputed journals and think beyond the box for the technology and the society. We are proud to be member Ideal Group.

## About the Program:

Generative AI focuses on building intelligent systems capable of creating content such as text, images, and audio. It introduces core generative AI concepts, key architectures, and model development workflows. Learners explore common techniques such as Generative Adversarial Networks (GANs), diffusion models, and large language models (LLMs) and apply them through hands-on tasks like image generation, text completion, and prompt-based experimentation using real-world datasets.

The program begins with foundational knowledge required to understand generative AI, starting from basic neural networks, activation functions, and loss optimization techniques. Participants are then introduced to the core concepts of generative modeling, including the principles behind content generation, latent space representations, and evaluation metrics. This hands-on introduction ensures that learners with minimal prior exposure can grasp the underlying ideas with clarity and confidence.

As the program progresses, participants dive into widely used generative AI architectures such as Generative Adversarial Networks (GANs), Variational Autoencoders (VAEs), diffusion models, and large language models (LLMs). Concepts are reinforced through practical coding exercises using Python and popular AI frameworks like PyTorch or TensorFlow.

Emphasis is placed on training challenges, model evaluation, and best practices for stable and effective generation.

By the end of the program, learners complete mini-projects and hands-on assignments that involve tasks like image generation, text completion, and prompt-based experimentation with real datasets. Alongside technical skills, the workshop emphasizes responsible and ethical use of generative AI, preparing participants to apply these models thoughtfully in real-world scenarios.

## OBJECTIVE OF THE PROGRAM:

- Introduce fundamentals of real-time embedded systems and free RTOS concepts.
- Guide setting up a development environment with a free RTOS (e.g., FreeRTOS).
- Teach designing and managing tasks, priorities, and stack sizes.
- Demonstrate use of synchronization primitives: semaphores, mutexes, queues.
- Build a complete real-time application from requirements to working code.

## ABOUT THE COLLEGE :

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal College of Arts and Sciences during academic year 2009–2010. The educational society of Ideal institutions has been rendering service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honored philanthropists, educationists, intellectuals and elite of Kakinada such as Late Sri I. V. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevini Kumari. Ideal institutions have started from school and blossomed into a group of colleges. Ideal institutions are of its own kind in rendering service to Society and value-based education. During early seventies Kakinada used to have only two colleges. Student community used to suffer a setback to upgrade their education even to the level of Intermediate.

The ideal Junior college had been started to cater to the needs of the student community. In due course the Jr. college flourished into Degree college and PG courses like M.B.A, M.C.A, M.A, M.Sc and Engineering College. Now the college is run under the expertise of Dr. P. Krishna Rao, Chairman of Pragati Engineering College to improve the capabilities and job potentials of the students.

Ideal Institute of Technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature. In this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to provide to our students. The spirit of innovation, modernization, and student centric teaching-learning are the corner stones of academics at Ideal Institute.

## ABOUT THE DEPARTMENT:

The faculty members strive to promote a sense of enquiry and questioning among their students. The culture at the institute is one of openness, mutual trust and faith most conducive to unconditional commitment to learning. Our faculty colleagues work on a diet of commitment towards excellence. We believe learning shall be a joy and teaching a pleasure.

The institute is committed to generate, disseminate and preserve knowledge, to work with others to bring this knowledge to face the global challenges. We are committed to provide our students an education that combines the rigour of academics and the grind of application along with the excitement of discovery, the zeal to develop in each member of the ideal community the ability and passion to work wisely, creatively and effectively for the betterment of humankind.

The institute renders moral and placement support to Value-based education, mentoring and character building, job oriented short-term courses, guest speakers from the industry, visits to industry houses, Entrepreneurship Development Programmes are our main stay. Students live in a unique environment that promotes culture, sports, society, contribution, and above all the self-governance. The Institute is always abuzz with new ideas and it is an exciting place to be. If you happen to be here you will feel it.

The Institution is having more than 1,50,000 sq. ft. built up area with well established laboratories in each department to cater to the needs of the students. Besides the institution is providing transport facility to the needy and also have good sports and canteen facilities. A team of well qualified and experienced faculty members mould the young students into future Engineers of the world.

The department of Electronics and Communication Engineering was established in the year 2009 and is running successfully with an intake of 60 students. The department is being run with dedicated staff members having an average experience of more than 10 years and teaching. The vision of the department is to achieve more recognition of the department and the institution. The department is well equipped with the state of the art infrastructure in all the laboratories. Our students are performing well in academics and they are also encouraged to participate equally in co-curricular and extra curricular activities. They are also participating in various technical events conducted by other prestigious colleges and universities and won prizes. Students are performing well in competitive exams like GATE, GRE, TOEFL. Some of the students are pursuing PG Programmes in prestigious Institutions like IIT's, NIT's and various universities. A good number of students are being selected by different Multi-national companies like IBM, TCS, CTS, Wipro, Accenture, Infosys and other prestigious companies every year.

## ABOUT THE PROGRAM:

The aim of this program is to help students understand the basic concepts of real-time embedded systems and learn how to design applications using **FreeRTOS**. It introduces task scheduling, communication between tasks, and handling timing requirements in real-time environments. Students will also gain practical skills in integrating hardware and software to build reliable and efficient embedded applications.

Date : 22-08-2024.

## Program Report

**Name of the Event :** A one day workshop on **Real Time Embedded System Design with free RTOS.**

**Date/Duration :** 21-08-2024 | 10:00 AM to 05:00 PM

**Resource Person :** **Dr. G.A ARUN KUMAR**

Associate Professor ,ECE Department

ADITYA UNIVERSITY, Surampalem

Ph.No: 9494954969

Mail Id: aarunkumarg@gmail.com

**Name of the Coordinator :** **Mr. B Kalyan Ram**

**No. of the students attended :** 64

**Objective of the event :** Introduce learners to the fundamentals of real-time embedded systems and guide them in designing, implementing, and debugging applications using a free, open-source RTOS (e.g., FreeRTOS).

**Topics covered :**

1. Explain the key concepts of real-time scheduling, task priorities, and inter-task communication.
2. Set up a development environment for a popular microcontroller (e.g., ARM Cortex-M) with a free RTOS.
3. Create and manage tasks, semaphores, queues, and timers in a real-time context.
4. Analyze and troubleshoot timing constraints, priority inversion, and stack usage.
5. Build a simple real-time application (e.g., sensor data acquisition with periodic processing) from start to finish.

**Outcome of the event :**

1. Understand RTOS fundamentals – Explain concepts like tasks, scheduling, priorities, and inter-task communication.
2. Set up a development environment – Install and configure toolchains (e.g., GCC, IDE) for a target MCU and integrate a free RTOS such as FreeRTOS.
3. Debug and optimize – Identify and resolve issues like priority inversion, stack overflow, and race conditions.
4. Build a complete application – Develop a real-time system (e.g., sensor sampling, control loop) from requirements to final code, demonstrating all the above.

## Program Report

**Name of the Event:** A two day workshop on “Research Methodology and IPR.

**Date/Duration:** 28-08-2024 & 29-08-2024| 10:00AM to 5:00 PM

**Resource Person:** Dr. G. Prasad, Assistant Professor, Dept. of Mechanical Engg.

V.S.M college of engineering. Ramachandrapuram.

[drprasadgampala@gmail.com](mailto:drprasadgampala@gmail.com)., ph:7075072292.

**Name of the Coordinator:** Mr.P.Rambabu, Assistant. Professor. ,Mechanical Department.

**No. of the students attended:** 51

### **Objective of the Event:**

- To enable participants to formulate a clear and focused research problem and appropriate hypotheses.
- To develop an understanding of various research designs and data collection methods (qualitative and quantitative).
- To impart skills in conducting effective and ethical literature reviews, including avoiding plagiarism and ensuring data integrity.
- To create awareness about the economic, social, and legal importance of IPRs among researchers and innovators.
- To provide an understanding of the different forms of intellectual property: patents, copyrights, trademarks, industrial designs, and geographical indications.

### **Topics covered:**

- **Formulating a research problem:** Defining a research question, setting objectives, and outlining the scope.
- **Literature review:** Understanding the importance of literature review and how to conduct one effectively.
- **Data collection:** Methods like observation, using research instruments, and creating attitudinal scales.
- **Writing and reporting:** Effective technical writing, structuring a research report, and creating research proposals.
- **Ethics:** Ethical issues and considerations throughout the research process.

# IDEAL INSTITUTE OF TECHNOLOGY

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

## Outcome of the event:

1. **Demonstrate an in-depth understanding of the research process** from problem identification to report writing.
2. **Analyze research-related information critically** and apply research ethics in their work.
3. **Develop advanced problem-solving and analytical skills** necessary for addressing research challenges.
4. **Identify and differentiate between various intellectual properties** within their research or creative work.
5. **Outline the process for obtaining IPR protection** in national and international scenarios.

## About the College

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honoured philanthropists, educationists, intellectuals and elite of Kakinada such as (Late) P. V. N. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevi Kumari. Ideal institutions have started from school and blossomed into group of colleges. Ideal Institutions are of its own kind in rendering service to society and value-based education.

During early seventies Kakinada used to have only two colleges. Student community used to suffer a set-back to upgrade their education even to the level of intermediate.

The ideal junior college had been started to cater to the needs of student community. In due course the jr .college flourished into Degree college and P.G courses like M.B.A, M.C.A, M.A, M.Sc and Engineering College.

Now the college is run under the expertise of Dr. P Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students.

Ideal institute of technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature.

In this present era of knowledge and technology driven every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to

provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

The faculty members strive to promote a sense of enquiry and questioning among their students. The culture at the institute is one of openness, mutual trust and faith most conducive to unconditional commitment to learning.

Our faculty colleagues thrive on a diet of commitment towards excellence. We believe that learning shall be a joy and teaching a pleasure

The Institute is committed to generate, disseminate and preserve knowledge to work with others to bring this knowledge to face the global challenges. We are committed to provide our students an education that combines the rigours of academics and the grind of application along with the excitement of discovery.

We seek to develop in each member of the Ideal community the ability and passion to work wisely, creatively and effectively for the betterment of mankind.

The Institute extends moral and placement support too.

Value based education, mentoring and character building, job oriented short term courses, guest speakers from the industry, visits to industry houses, Entrepreneurship Development Programmes are our main stay Students live in a unique environment that promotes culture, sports, society contributions, and above all the self-governance.

The institute is always abuzz with new ideas and is an exciting place to be, if you a happen to be dreamer.

The Institution is having more than 1,50,000 sqft., built up area with well established laboratories in each department to cater to the needs of the students

Besides the Institution is providing transport facility to the needy and also have good sports and canteen facilities.

A team of well qualified and experienced faculty members mould the young students into future Engineers of world.

### About the Department:

The Mechanical Engineering department was established in 2009 with an intake of 60 seats. The lateral entry of students into the department is approximately 20% of the total intake every year. The department comprises well-qualified and experienced faculty, many of whom are alumni of JNTU Kakinada, JNTU Hyderabad, and Andhra University. The faculty continuously strives for Outcome Based Education (OBE) by exploring new frontiers of knowledge, imparting the latest technical expertise to students, and conducting high-quality research, with numerous international publications to their credit. The department is equipped with well-furnished laboratories in core areas such as Thermodynamics, Fluid Mechanics, Mechanical Design, Manufacturing Processes, and Robotics. Additionally, there is a dedicated unit for Mechanical Engineering software, including AutoCAD (2D & 3D), ANSYS, and SolidWorks.

### Objective of the Programme:

- To enable participants to **formulate a clear and focused research problem** and appropriate hypotheses.
- To develop an understanding of various research designs and data collection methods (qualitative and quantitative).
- To impart skills in conducting effective and ethical literature reviews, including avoiding plagiarism and ensuring data integrity.
- To provide an understanding of the different forms of intellectual property: patents, copyrights, trademarks, industrial designs, and geographical indications.

LECTURE HALL,  
IDEAL INSTITUTE OF TECHNOLOGY

ORGANIZED BY  
DEPARTMENT OF ECE

## ABOUT THE COLLEGE :

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and Sciences during academic year 2009-2010. The educational society of ideal institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honored philanthropists, educationists, intellectuals and elite of Kakinada such as Late Sri I. V. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevini Kumari. Ideal institutions have started from school and blossomed into group of colleges. Ideal institutions are of its own kind in rendering service to Society and value-based education. During early seventies Kakinada used to have only two colleges. Student community used to suffer a setback to upgrade their education even to the level of Intermediate.

The ideal Junior college had been started to cater to the needs of student community. In due course the Jr. college flourished into Degree college and PG courses like M.B.A, M.C.A, M.A, M.Sc and Engineering College. Now the college is run under the expertise of Dr. P. Krishna Rao, Chairman of Pragati Engineering College to improve the capabilities and job potentials of the students.

deal Institute of Technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature. In this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to provide to our students. The spirit of innovation, modernization, and student centric teaching-learning are the corner stones of academics at Ideal Institute.

The faculty members strive to promote a sense of enquiry and questioning among their students. The culture at the institute is one of openness, mutual trust and faith most conducive to unconditional commitment to learning. Our faculty colleagues work on a diet of commitment towards excellence. We believe learning shall be a joy and teaching a pleasure.

The institute is committed to generate, disseminate and preserve knowledge, to work with others to bring this knowledge to face the global challenges. We are committed to provide our students an education that combines the rigour of academics and the grind of application along with the excitement of discovery, the zeal to develop in each member of the ideal community the ability and passion to work wisely, creatively and effectively for the betterment of mankind.

The institute extends moral and placement support too. Value based education, mentoring and character building, job oriented short term courses, guest speakers from the industry, visits to industry houses, Entrepreneurship Development Programmes are our main stay. Students live in a unique environment that promotes culture, sports, society, contribution, and above all the self-governance. The institute is always abuzz with new ideas and it is an exciting place to be. If you happen to be a dreamer.

The Institution is having more than 1,50,000 sft. built up area with well established laboratories in each department to cater to the needs of the students. Besides the institution is providing transport facility to the needy and also have good sports and canteen facilities.

A team of well qualified and experienced faculty members mould the young students into future Engineers of world.

## ABOUT THE DEPARTMENT:

The department of Electronics and Communication Engineering was established in the year 2009 and is running successfully with an intake of 60 students. The department is being run with dedicated staff members having an average experience of more than 10 years and teaching. The vision of the department is to achieve more recognition of the department and the institution. The department is well equipped with the state of the art infrastructure in all the laboratories. Our students are performing well in academics and they are also encouraged to participate equally in co-curricular and extra curricular activities. They are also participating in various technical events conducted by other prestigious colleges and universities and won prizes. Students are performing well in competitive exams like GATE, GRE, TOEFL. Some of the students are pursuing PG Programmes in prestigious Institutions like IIT's, NIT's and various universities. A good number of students are being selected by different Multi-national companies like IBM, TCS, CTS, Wipro, Accenture, Infosys and other prestigious companies every year

## ABOUT THE PROGRAM:

AI on embedded platforms using Raspberry Pi focuses on running artificial intelligence applications on small, affordable computing devices. Raspberry Pi serves as the core hardware to process data from sensors, cameras, and microphones. The program uses Python along with AI and machine learning libraries such as TensorFlow, Keras, and OpenCV. This approach helps in understanding real-time decision making on embedded systems. The program demonstrates how AI can be integrated into embedded systems for smart and automated applications.

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

**Accredited by NAAC with A<sup>+</sup>**

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

Date : 10-09-2024.

## Program Report

**Name of the Event:** A one day workshop on “AI on Embedded platforms using Raspberry Pi “.

**Date/Duration:** 09-09-2024 | 10:00 AM to 05:00 PM

**Resource Person:** Dr. M RAMA KRISHNA REDDY

Assistant Professor, CSE Department,

ADITYA UNIVERSITY, Surampalem.

Email: Ramakrishna.chanti@gmail.com.

Contact number: 7680829318

**Name of the Coordinator:** Mr. M Varaprasad

**No. of the students attended:** 69

**Objective of the event:** Artificial Intelligence on Embedded Platforms using Raspberry Pi enables real-time intelligent processing directly at the edge without relying on cloud systems. This event introduces participants to deploying lightweight AI models on Raspberry Pi using tools like Tensor Flow Lite and Open CV.

### **Topics covered:**

- Introduction to Embedded AI
- Overview of Raspberry Pi Architecture
- AI Frameworks for Edge Devices
- Model Optimization and Deployment
- Computer Vision on Raspberry Pi

### **Outcome of the event :**

- Participants gain hands-on experience in deploying optimized AI models on Raspberry Pi for real-time edge applications.
- They learn to integrate sensors, cameras, and actuators to build intelligent embedded AI systems.
- Participants develop the ability to design and implement practical AI-based projects suitable for IoT and automation.

## Program Report

**Name of the Event :** A one day workshop on “**DIFFERENTIAL EQUATIONS: THEORY, METHODS APPLICATIONS**”

**Date/Duration :** 19-09-2024 | 10:00 AM to 05:00 PM

**Resource Person :** Y.Purnanadh , kiet(w) ,korangi  
Ph.No:9959352012  
Mail Id:purnanadh.y@gmail.com

**Name of the Co-ordinator :** R.Krishna

**No. of the students attended :** 140

**Objective of the event :** The main objective of the workshop is to understand the formulation of ordinary and partial differential equations from real-world problems with solution methods and boundary-value problems.

By understanding all the above concepts, we can appreciate applications of differential equations in modelling physical, biological systems.

### **Topics covered :**

- 1, Foundations & Ordinary Differential Equations
2. Introduction to differential equations: What they are, how they arise (modelling change, growth/decay, motion)
3. Classification: Order, degree, linear vs non-linear, homogeneous vs non-homogeneous differential equations
4. First order ODEs: separable equations, linear first-order ODEs, exact equations, integrating-factor method
5. Higher-order linear ODEs : Higher order linear ODEs with constant coefficients, characteristic equation, particular integrals, variation of parameters

### **Outcome of the event :**

- \* 1) Be confident to formulate differential equations from simple real-world problems
- \* 2) Be able to solve a variety of ordinary differential equations by analytic methods and interpret the solutions.
- \* 3) Be aware of the nature of partial differential equations and able to solve simple PDEs (heat/wave) via separation of variables
- \* Understand some applications of differential equations in engineering, physics, biology, etc.,

### About the College:

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and Sciences during academic year 2009-2010. The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honoured philanthropists, educationists, intellectuals and elite of Kakinada such as (Late) P. V. N. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevini Kumari. Ideal institutions have started from school and blossomed into group of colleges. Ideal Institutions are of its own kind in rendering service to society and value-based education.

During early seventies Kakinada used to have only two colleges. Student community used to suffer a set-back to upgrade their education even to the level of intermediate. The ideal junior college had been started to cater to the needs of student community. In due course the jr college flourished into Degree college and P.G courses like M.B.A, M.CA, MA, M.Sc and Engineering College. Now the college is run under the expertise of Dr. P Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students. Ideal institute of technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature in this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

The faculty members strive to promote a sense of enquiry and questioning among their students. The culture at the institute is one of openness, mutual trust and faith most conducive to unconditional commitment to learning.

Our faculty colleagues thrive on a diet of commitment towards excellence. We believe that learning shall be a joy and teaching a pleasure

The Institute is committed to generate, disseminate and preserve knowledge to work with others to bring this knowledge to face the global challenges. We are committed to provide our students an education that combines the rigours of academics and the grind of application along with the excitement of discovery.

We seek to develop in each member of the Ideal community the ability and passion to work wisely, creatively and effectively for the betterment of mankind. The Institute extends moral and placement support too. Value based education, mentoring and character building, job oriented short term courses, guest speakers from the industry, visits to industry houses, Entrepreneurship Development Programmes are our main stay Students live in a unique environment that promotes culture, sports, society contributions, and above all the self-governance

The institute is always abuzz with new ideas and is an exciting place to be, if you a happen to be dreamer.

The Institution is having more than 1,50,000 sq.ft., built up area with well-established laboratories in each department to cater to the needs of the students. Besides the Institution is providing transport facility to the needy and also have good sports and canteen facilities.

A team of well qualified and experienced faculty members mould the young students into future Engineers of world.

### ABOUT THE DEPARTMENT :

Computer Science Engineering Department was established in the year 2009 with an intake of 60. The lateral entry of the Department is 20% of the total intake. The Department maintains excellence in its infrastructural and academics.

We feel pride in organizing workshops and seminars to the students and also other colleagues for Update of Knowledge and betterment of the society.

Since its inception in the department is offering four year B.Tech degree programs in Computer Science Engineering.

We have 24X7 internet facility with a bandwidth of 20 Mbps to cater the need of the academics and non academic activities.

Our faculty encourages each and every student to pursue research and publish paper in reputed journals and think beyond the box for the technology and the society. We are proud to be member Ideal Group.

### About the Program:

1. Differential equations serve as the fundamental bridge between mathematical abstraction and the physical world. At its core, the study of Differential Equations: Theory, Methods, and Applications is the study of change; it provides a formal language to describe how a system evolves over time or space based on its current state. The Theory component provides the logical backbone, utilizing rigorous proofs to determine if a system is predictable and stable

**PROGRAMME CONTENT:-**

## PROGRAM REPORT

**Name of the Event: A Three Days Workshop on Role of “Artificial Intelligence & Machine Learning”**

**Dates:** 3-10-2024 to 5-10-2024

**Resource Person:** Dr. U.VINOD KUMAR

Professor, CSE Department, GIET, RAJAHMUNDRY.

Email: Vinodkumar23@gmail.com

Contact Number: 9949 993 483

**Name of the Coordinator:** Mr.M.V.V.CHOWDARY

**Number of Students attended:** 132

**Venue:** 203- Seminar Hall.

### **Objectives of the Program:**

- To build a strong foundational understanding of Artificial Intelligence and Machine Learning concepts
- To help participants understand the complete ML lifecycle, from data collection to model evaluation.
- To provide hands-on experience with Python, ML libraries, and real datasets
- To introduce neural networks and basic deep learning concepts
- To demonstrate real-world AI applications and how industries use AI technologies
- To guide participants through building an end-to-end machine learning project

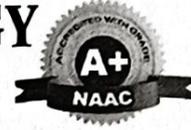

### **Topics Covered:**

- Introduction to Artificial Intelligence
- Machine Learning Fundamentals
- Data Handling & Preprocessing
- Core ML Algorithms, Model Training & Evaluation
- Deep Learning Basics
- AI Applications & Case Studies
- Model Deployment Introduction
- End-to-End Mini Project

# IDEAL INSTITUTE OF TECHNOLOGY

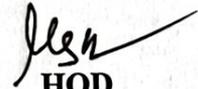

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)  
VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

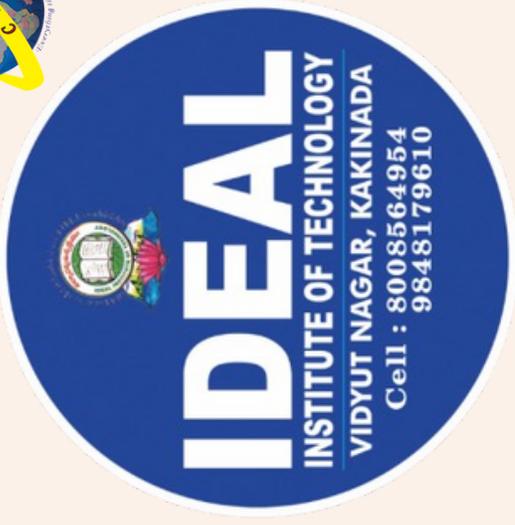

## Outcomes of the Program:

- Clearly understand AI, ML, and Deep Learning fundamentals.
- Explain and differentiate ML learning types and algorithms.
- Preprocess datasets, handle missing data, and prepare inputs for ML models.
- Build and evaluate classification, regression, and clustering models.
- Create a simple neural network model using TensorFlow/PyTorch.
- Understand how ML models are deployed and used in real-world systems.
- Complete a mini AI/ML project suitable for academic or professional portfolios.
- Gain confidence to move toward advanced AI, ML, and Deep Learning courses.

**PROGRAMME CONTENT:-**

A Three Days Workshop on the Role of “Artificial Intelligence & Machine Learning” focuses on understanding the fundamentals of AI and ML and their applications in solving real-world problems. This program covers core concepts such as types of machine learning, data preprocessing, feature engineering, and model training and evaluation. Participants also explore popular AI and ML algorithms, along with supervised and unsupervised learning approaches. The workshop introduces real-world applications of AI.

During early seventies Kakinada used to have only two colleges. Student community used to suffer a setback to upgrade their education even to the level of intermediate. The ideal junior college had been started to cater to the needs of student community. In due course the jr college flourished into Degree college and P.G courses like M.B.A, M.C.A, MA, M.Sc and Engineering College.

Now the college is run under the expertise of Dr. P. Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students. Ideal institute of technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature in this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

## ABOUT THE DEPARTMENT :

Computer Science Engineering Department was established in the year 2009 with an intake of 60. The lateral entry of the Department is 20% of the total intake. The Department maintains excellence in its infrastructural and academics.

We feel pride in organizing workshops and seminars to the students and also other colleagues for Update of knowledge and betterment of the society.

Since its inception in the department is offering four year B.Tech degree programs in Computer Science Engineering.

We have 24X7 internet facility with a band width of 20 Mbps to cater the need of the academics and non academic activities.

Our faculty encourages each and every student to pursue research and publish paper in reputed journals and think beyond the box for the technology and the society. We are proud to be member Ideal Group.

## About the Program:

Role of “Artificial Intelligence & Machine Learning” focuses on equipping learners with the skills to understand and apply intelligent systems and data-driven solutions. As organizations increasingly adopt AI-powered technologies, knowledge of building, training, and deploying machine learning models has become essential. This program introduces participants to the AI and ML ecosystem, covering core concepts such as data preprocessing, feature engineering, supervised and unsupervised learning, and model evaluation. Learners will also explore key topics including popular algorithms, performance optimization, ethical considerations, and responsible AI practices. Through practical demonstrations, hands-on exercises, and real-world use cases, participants gain the expertise needed to develop, evaluate, and implement effective AI and machine learning solutions across industries.

The program begins by building a foundational understanding of artificial intelligence and machine learning concepts and their role in modern technological systems. Participants are introduced to core AI and ML principles, including types of machine learning, data collection, data preprocessing, and basic model development. With a focus on clarity and accessibility, the workshop explains learning paradigms, workflows, and problem-solving approaches in a simplified manner, making it suitable for learners from diverse academic and technical backgrounds.

As the workshop progresses, learners dive deeper into applying AI and ML techniques through hands-on activities and practical exercises. They gain experience in preparing datasets, training and evaluating machine learning models, and working with common algorithms for classification, regression, and clustering. Participants also explore essential topics such as model performance metrics, overfitting and underfitting, and the use of popular tools and libraries, reinforcing best practices followed in real-world applications.

Beyond technical skills, the workshop highlights the practical and strategic impact of artificial intelligence and machine learning in various industries. Participants examine real-world use cases, understand ethical and responsible AI practices, and explore considerations such as scalability, deployment, and model maintenance. This broader perspective ensures learners not only develop practical AI and ML skills but also gain insight into how intelligent systems are designed, implemented, and aligned with organizational and societal needs.

## PROGRAM REPORT

**Name of the Event: A Two Days Workshop on Role of “IPR AND ENTREPRENEURSHIP”**

**Dates:** 07-10-2024 to 08-10-2024

**Resource Person:** Dr. B.VENKATESHWARLU

Professor, MBA Department, CBIT, HYDERABAD.

Email: drvenkatbarla@gmail.com

Contact Number: 7094784518

**Name of the Coordinator:** Smt. A.Kanakam

**Number of Students attended:** 67

**Venue:** 203- Seminar Hall.

### **Objectives of the Program:**

- Provide foundational knowledge of IPR and entrepreneurship.
- Create awareness about the protection of creative and innovative works.
- Equip learners with legal and strategic tools for managing IP assets.
- Encourage innovation-driven entrepreneurship.
- Enable students to link IPR with business planning and venture creation.
- Prepare entrepreneurs to leverage IPR for sustainable competitive advantage.

### **Topics Covered:**

- Introduction to IPR and Entrepreneurship.
- Types of Intellectual Property Rights.
- IPR Legal Framework.
- IPR in Innovation and Startups.
- Commercialization of Intellectual Property.
- IPR Strategy for Entrepreneurs.

# IDEAL INSTITUTE OF TECHNOLOGY

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

- Entrepreneurship Development.
- Ethics, Challenges, and Future Trends

## Outcomes of the Program:

- Understand the fundamentals of IPR and entrepreneurship.
- Identify and differentiate various forms of intellectual property.
- Apply IPR laws to protect innovations and business ideas.
- Analyze the role of IPR in startup growth and competitiveness.
- Evaluate IPR strategies for commercialization and value creation.
- Develop an IP-conscious entrepreneurial mindset.

## **PROGRAMME CONTENT:-**

IPR and Entrepreneurship focuses on equipping learners with the knowledge to protect intellectual assets and transform innovative ideas into viable business opportunities. It introduces core Intellectual Property Rights concepts such as patents, copyrights, trademarks, and designs, and explains their importance in innovation and commercialization. The program also covers essential entrepreneurship principles including idea validation, business models, market analysis, funding strategies, and startup ecosystems. Through real-world case studies and practical insights, participants learn how IPR supports competitive advantage, risk mitigation, and long-term business growth while encouraging innovation-driven enterprises.

## **About the College:**

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and Sciences during academic year 2009-2010. The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honoured philanthropists, educationists, intellectuals and elite of Kakinada such as (Late) P. V. N. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevini Kumari. Ideal institutions have started from school and blossomed into group of colleges. Ideal Institutions are of its own kind in rendering service to society and value-based education.

During early seventies Kakinada used to have only two colleges. Student community used to suffer a set-back to upgrade their education even to the level of intermediate. The ideal junior college had been started to cater to the needs of student community. In due course the jr college flourished into Degree college and P.G courses like M.B.A, M.CA, MA, M.Sc and Engineering College.

Now the college is run under the expertise of Dr. P Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students. Ideal institute of technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature in this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

This program blends conceptual understanding with practical insights, allowing learners to explore real-world scenarios related to innovation, intellectual property protection, and business creation. Participants examine case studies of startups and enterprises to understand how ideas are transformed into protected assets and commercially viable products.

Emphasis is placed on developing an entrepreneurial mindset—fostering creativity, strategic thinking, and risk awareness. Learners understand the importance of safeguarding intellectual assets while encouraging innovation, collaboration, and ethical business practices. The program is suitable for students, innovators, researchers, and aspiring entrepreneurs seeking to navigate the intersection of technology, law, and business.

Participants gain practical exposure to IPR processes such as patent filing, trademark registration, copyright protection, and licensing strategies. The program also covers commercialization pathways, funding options, startup ecosystems, and the role of IPR in attracting investors and building competitive advantage.

By integrating intellectual property management with entrepreneurship principles, learners are prepared to apply their knowledge in real-world innovation and startup environments. Upon completion, participants develop a holistic understanding of how IPR supports sustainable business growth, protects innovation, and enables successful entrepreneurial ventures in today's competitive landscape.

## **ABOUT THE DEPARTMENT :**

Computer Science Engineering Department was established in the year 2009 with an intake of 60. The lateral entry of the Department is 20% of the total intake. The Department maintains excellence in its infrastructural and academics.

We feel pride in organizing workshops and seminars to the students and also other colleagues for Update of knowledge and betterment of the society.

Since its inception in the department is offering four year B.Tech degree programs in Computer Science Engineering.

We have 24X7 internet facility with a band width of 20 Mbps to cater the need of the academics and non academic activities.

Our faculty encourages each and every student to pursue research and publish paper in reputed journals and think beyond the box for the technology and the society. We are proud to be member Ideal Group.

## **About the Program:**

This program equips learners with practical knowledge of Intellectual Property Rights (IPR) and entrepreneurship. Participants learn how to protect innovations through patents, copyrights, trademarks, and designs, while also understanding how ideas can be developed into sustainable and competitive business models. The program also introduces key entrepreneurial concepts such as idea validation, market analysis, funding strategies, and startup ecosystems. Through real-world examples and case studies, learners gain insights into commercialization, innovation management, and the strategic role of IPR in supporting long-term business growth and entrepreneurial success.

## CIRCULAR

All the I B. Tech (CSE) students are hereby informed that **A One day workshop on “SUSTAINABLE BIODEGRADABLE PLASTICS AND THEIR APPLICATION”** will be conducted on 11-11-2024.

All interested students can enroll their names with Ms.A.Sujani , Asst. Professor, H&BS Dept on before 07-11-2024. The details of topics and resource persons are available in brochure displayed in H&BS department's notice board.

Venue : 203 ‘Seminar Hall’.

Vidyut Nagar, KAKINADA- 533 003. (A.P.)

**Accredited by NAAC with A+**

Date : 13-11-2024.

## Program Report

**Name of the Event :** A one day workshop on

SUSTAINABLE BIODEGRADABLE PLASTICS AND THEIR  
APPLICATIONS.

**Date/Duration :** 12-11-2024 | 10:00 AM to 05:00 PM

**Resource Person :** Dr.L.Narasimhamurthy, Prof, H&BS Department.

**Name of Coordinator :** A.Sujani, Asst.Prof, H&BS Dept.

**No. of the students attended :** 260

**Objective of the event :** The objective of this workshop was to acquaint the participants with to understand the state of art in Sustainable Biodegradable plastics and their Application. The student will be able to do Energy efficient, Sustainable and carbon neutral in Sustainable Biodegradable plastics. The student will understand Eco friendly Biodegradable Plastics. The participants will demonstrate the knowledge of Starch and Cellulose.

### **Topics covered :**

- 1, Introduction to Synthetic Polymers.
2. Difference between PLA and PHA.
3. Biodegradable Plastics PBS, Starch and Cellulose.
4. Economic Analysis of Biodegradable Plastics.
5. Commercially Available Plastics.
6. Introduction to Biodegradable Plastics.
7. General Discussion & Overview of Biodegradable Plastics.
8. 'Biodegradable Plastics'- Source, Properties and Applications.
9. 'Commercially Available Plastics'- HDPE, LDPE, PVC, PTP, PS.
10. Based on Renewable and biomass.

### **Outcome of the event :**

- \* **Lower Carbon Footprint:** Bioplastics reduce fossil fuel dependency and offer lower CO<sub>2</sub> emissions
- \* **Versatile Use:** They are applicable in diverse fields, especially packaging, agriculture, and medicine.
- \* **Adoption Barriers:** High cost and inadequate composting/recycling infrastructure limit their widespread use.

### Objectives of the program :

- > Develop new biodegradable polymer blends using renewable and waste biomass sources.
- > Validate bioplastics for commercial readiness across key industrial applications
- > The students understand Eco friendly biodegradable plastics
- > To introduce biodegradable plastics.
- > The participants demonstrates the knowledge of starch and cellulose

## ABOUT THE COLLEGE :

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and Sciences during academic year 2009-2010. The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honored philanthropists, educationists, intellectuals and elite of Kakinada such as (Late) P. V. N. Raju, Dr. N. S. R. Sasiray, Dr. P. Chiranjeevi Kumar. Ideal institutions have started from school and blossomed into group of colleges. Ideal institutions are of its own kind in rendering service to society and value-based education. During early seventies Kakinada used to have only two colleges. Student community used to suffer a setback to upgrade their education even to the level of intermediate.

The ideal junior college had been started to cater to the needs of student community. In due course the jr. college flourished into Degree college and P.G courses like M.B.A., M.C.A., M.A., M.Sc and Engineering College. Now the college is run under the expertise of Dr. P Krishna Rao, Chairman of Prajati Engineering College to improve the capabilities and Job potentials of the students.

Ideal Institute of Technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature. In this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at ideal institute endeavor to provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

The faculty members strive to promote a sense of enquiry and questioning among their students. The culture at the institute is one of openness, mutual trust and faith most conducive to unconditional commitment to learning. Our faculty colleagues thrive on a diet of commitment towards excellence. We believe that learning shall be a joy and teaching a pleasure.

The Institute is committed to generate, disseminate and preserve knowledge to work with others to bring this knowledge to face the global challenges. We are committed to provide our students an education that combines the rigours of academics and the grind of application along with the excitement of discovery. We seek to develop in each member of the Ideal community the ability and passion to work wisely, creatively and effectively for the betterment of mankind.

The Institute extends moral and placement support too. Value based education, mentoring and character building, job oriented short term courses, guest speakers from the industry, visits to industry houses, Entrepreneurship Development Programmes are our main stay. Students live in a unique environment that promotes culture, sports, society contributions, and above all the self-governance. The institute is always abuzz with new ideas and is an exciting place to be, if you happen to be dreamer.

The institution is having more than 1,50,000 sq. ft., built up area with well established laboratories in each department to cater to the needs of the students. Besides the institution is providing transport facility to the needy and also have good sports and canteen facilities.

A team of well qualified and experienced faculty members mould the young students into future Engineers of world.

## About the Department:

The department of HGBS was established in the year 2009 and running successfully with an intake of 70 students. The department staff members having an average experience of more than 10 years to achieve the vision of the department and the institution. The department is well equipped with the state of the art infrastructure in all the laboratories. Our students are performing well in academics and they are also encouraged to participate equally in extra-curricular and R&D activities. They are also participating in various technical events conducted by other prestigious colleges and universities and won prizes. Students are performing well in competitive exam like GATE, GRE, TOEFL, some of the students are pursuing P.G programmes in prestigious institutions like IIT's, NIT's and various Universities; good number of students are being selected for the jobs in the campus interviews conducted by different multinational in the companies like IBM, TCS, CTS, Wipro, Accenture, Infosys and other prestigious companies every year.

## About the program :

The aim of this program is to introduce the students to understand the basics concepts of sustainable polymers and be able to know a green engineering design approach to perform a specific function. It provides various biopolymer synthesis and application design approaches on a sustainable environment, and students will understand how to integrate chemical processes and manufacturing techniques of a biodegradable plastic product using life cycle assessment methods.

## CIRCULAR

All the II B. Tech (ECE) students are hereby informed that A One day workshop on “FPGA with VHDL and Verilog” will be conducted on 06-01-2025. All interested students can enroll their names with Mr.M Varaprasad Asst. Professor, Department of ECE on or before 05-01-2025. The details of topics and resource persons are available in brochure displayed in ECE department's notice board.

Venue : ECAD LAB : 215, Department of ECE.

## Objectives of the Program:

- To introduce students to FPGA architecture and digital system design.
- To provide strong foundational knowledge of VHDL and Verilog programming.
- To develop skills in designing, simulating, and implementing HDL-based circuits.
- To enable learners to build and test real-time FPGA applications for academic and industry needs.

A team of well qualified and experienced faculty members mould the young students into future Engineers of world.

## ABOUT THE DEPARTMENT:

The department of Electronics and Communication Engineering was established in the year 2009 and is running successfully with an intake of 60 students. The department is being run with dedicated staff members having an average experience of more than 10 years and teaching. The vision of the department is to achieve more recognition of the department and the institution. The department is well equipped with the state of the art infrastructure in all the laboratories. Our students are performing well in academics and they are also encouraged to participate equally in co-curricular and extra curricular activities. They are also participating in various technical events conducted by other prestigious colleges and universities and won prizes. Students are performing well in competitive exams like GATE, GRE, TOEFL. Some of the students are pursuing PG Programmes in prestigious Institutions like IIT's, NIT's and various universities. A good number of students are being selected by different Multi-national companies like IBM, TCS, CTS, Wipro, Accenture, Infosys and other prestigious companies every year.

## ABOUT THE PROGRAM:

FPGA (Field Programmable Gate Array) is a programmable hardware device that can be configured to perform specific digital functions. VHDL and Verilog are hardware description languages used to design, model, and implement FPGA circuits. They are widely used in applications like digital signal processing, robotics, and embedded systems. These languages allow designers to describe hardware behavior at different levels such as behavioral, RTL, and structural. Designs written in VHDL or Verilog are simulated to verify correctness before being programmed onto the FPGA. FPGAs offer high speed, parallel processing, and flexibility...

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

Date : 08-01-2025.

## Program Report

**Name of the Event :** A one day workshop on “FPGA with VHDL and Verilog “

**Date/Duration :** 06-01-2025 | 10:00 AM to 05:00 PM

**Resource Person :** DR. G.A. ARUN KUMAR

Associate Professor, ECE Department,  
ADITYA UNIVERSITY, Surampalem.

Email: [aarunkumarg@gmail.com](mailto:aarunkumarg@gmail.com)

Contact number: 9494954969

**Name of the Coordinator :** Mr.M Varaprasad

**No. of the students attended :** 69

**Objective of the event :** The objective of this event is to introduce students to FPGA architecture and digital design concepts, while building confidence in using VHDL and Verilog for hardware programming. It aims to provide hands-on experience in implementing and testing FPGA-based circuits. The program helps learners understand real-time digital system behavior and strengthens their ability to design efficient hardware solutions for industry needs.

### **Topics covered :**

- Introduction to FPGA architecture and applications, basics of HDL
- Basics of HDL: VHDL and Verilog syntax & structure.
- Combinational and sequential circuit design using HDL.
- Simulation, synthesis, and implementation flow.FPGA toolchain usage (Xilinx/Intel)

### **Outcome of the event :**

- Students will understand FPGA architecture and apply VHDL/Verilog for digital design.
- Participants will gain hands-on skills in simulating, synthesizing, and implementing HDL-based circuits.
- Learners will be capable of developing and debugging real-time FPGA projects for practical applications.

## PROGRAM REPORT

**Name of the Event: A Three Days Workshop on Role of “Advanced Database”**

**Dates:** 06-01-2025 to 08-01-2025

**Resource Person:** Mr. P.NANIBABU

Associate Professor, CSE Department, VSM College  
Engineering, Ramachandrapuram

Email: nanibabu2@gmail.com

Contact Number: 7671015858

**Name of the Coordinator:** Smt B.Bhagaya Lakshmi

**Number of students attended:** 132

**Venue:** 203- Seminar Hall.

### **Objectives of the Program:**

- To provide a deep understanding of advanced SQL techniques and performance optimization.
- To teach participants how to design, optimize, and maintain complex databases.
- To introduce NoSQL and modern database technologies for handling large-scale or unstructured data.
- To help learners understand distributed systems, sharding, replication, and consistency models.
- To build practical skills in database administration, security, and backup strategies.
- To guide participants through applying skills in a real-world database design and optimization project.

### **Topics Covered:**

- Advanced SQL & Query Optimization.
- Database Design & Modeling.
- NoSQL & Modern Database Technologies
- Big Data & Distributed Databases
- Database Security & Administration
- Real-Time Data & Cloud Databases

# IDEAL INSTITUTE OF TECHNOLOGY

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

## Outcomes of the Program:

- Write and optimize **advanced SQL queries** using indexing and query plans.
- Design **efficient, scalable, and normalized/denormalized database schemas**.
- Work with both **relational and NoSQL databases** for different use cases.
- Understand **distributed database architecture** and how modern systems scale.
- Apply **security best practices** including encryption, roles, and audits.
- Perform **backup, restore, administration, and monitoring tasks**.
- Work with **cloud-based and real-time databases**.
- Complete a **mini advanced database project** demonstrating practical skill.
- Gain confidence to work with enterprise-level database systems and architectures.

## **PROGRAMME CONTENT:-**

This program provides a hands-on approach to the Role of Advanced Database Systems, equipping learners with the skills to design, manage, and optimize modern data storage solutions. Participants cover fundamentals such as advanced SQL concepts, data modeling, normalization, and indexing, as well as advanced topics including query optimization, transactions, concurrency control, and database security. The course also addresses backup and recovery strategies, performance tuning, and scalability techniques.

## **Resource person:**

P.NANIBABU  
Associate Professor, CSE Department,  
VSM College  
Engineering,Ramachandrapuram  
ph :7671015858

## About the College:

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and Sciences during academic year 2009-2010. The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honoured philanthropists, educationists, intellectuals and elite of Kakinada such as (Late) P. V. N. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevini Kumari. Ideal institutions have started from school and blossomed into group of colleges. Ideal Institutions are of its own kind in rendering service to society and value-based education.

During early seventies Kakinada used to have only two colleges. Student community used to suffer a setback to upgrade their education even to the level of intermediate. The ideal junior college had been started to cater to the needs of student community. In due course the jr college flourished into Degree college and P.G courses like M.B.A, M.C.A, MA, M.Sc and Engineering College.

Now the college is run under the expertise of Dr. P Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students. Ideal institute of technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature in this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

Throughout the program, learners will engage in practical exercises and hands-on projects that simulate real-world advanced database scenarios, allowing them to build expertise in designing, implementing, and managing efficient database systems. Emphasis is placed on developing the skills necessary to handle complex queries, optimize database performance, and ensure data consistency and integrity across applications. By the end of the program, participants will be well-equipped to work with advanced database technologies, supporting reliable and high-performance data management in enterprise environments.

The program also emphasizes applying advanced database concepts to real-world use cases. Participants will gain a comprehensive understanding of when and how to use indexing strategies, normalization and denormalization techniques, transactions, and concurrency control to improve efficiency and reliability. The course covers query optimization, locking mechanisms, backup and recovery processes, and database security practices, enabling learners to design robust, secure, and scalable database solutions.

Additionally, this program provides an in-depth understanding of essential tools and techniques used in modern database systems, including advanced SQL features, stored procedures, triggers, views, and performance monitoring tools. Learners will work on practical database projects and case studies, gaining the ability to design schemas, manage large datasets, implement access control, and maintain databases that support scalability, availability, and long-term organizational needs.

## ABOUT THE DEPARTMENT :

Computer Science Engineering Department was established in the year 2009 with an intake of 60. The lateral entry of the Department is 20% of the total intake. The Department maintains excellence in its infrastructural and academics.

We feel pride in organizing workshops and seminars to the students and also other colleagues for Update of knowledge and betterment of the society.

Since its inception in the department is offering four year B.Tech degree programs in Computer Science Engineering.

We have 24X7 internet facility with a band width of 20 Mbps to cater the need of the academics and non academic activities.

Our faculty encourages each and every student to pursue research and publish paper in reputed journals and think beyond the box for the technology and the society. We are proud to be member Ideal Group.

## About the Program:

This program is designed to provide a practical and hands-on introduction to Advanced Database Systems, equipping learners with the skills to design, manage, and optimize complex data storage and retrieval solutions. As organizations increasingly rely on large-scale data for decision-making and operations, a strong understanding of advanced database concepts enables participants to ensure data integrity, performance, and scalability. The program covers essential concepts such as advanced SQL queries, data modeling, normalization, indexing, and transaction management, followed by advanced topics including query optimization, concurrency control, database security, and access control mechanisms.

In addition, participants explore backup and recovery strategies, performance tuning techniques, and approaches for handling large and distributed datasets.

## OBJECTIVES OF THE PROGRAM:

- **Understand Core Components:**

Define and explain the essential building blocks of any IoT system: **sensors** (data collection), **connectivity** (data transfer), and **control** (automated action).

- **Explain Communication Technologies:**

Identify and differentiate between the key communication protocols (e.g., Wi-Fi, LoRaWAN, MQTT) used to ensure reliable data exchange between devices.

- **Analyze Real-World Applications:**

Examine practical case studies (e.g., Smart Cities, Industrial IoT, Smart Homes) to see how sensors and control mechanisms are implemented in the field.

- **Address Challenges:** Recognize and discuss the critical issues in deploying IoT, focusing primarily on **data security, privacy, and scalability.**

## ABOUT THE COLLEGE:

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and Sciences during academic year 2009-2010. The educational society of ideal institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honored philanthropists, educationists, intellectuals and elite of Kakinada such as Late Sri I. V. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevini Kumari. Ideal institutions have started from school and blossomed into group of colleges. Ideal institutions are of its own kind in rendering service to Society and value-based education. During early seventies Kakinada used to have only two colleges. Student community used to suffer a setback to upgrade their education even to the level of Intermediate.

The ideal Junior college had been started to cater to the needs of student community. In due course the Jr. college flourished into Degree college and PG courses like M.B.A, M.C.A, M.A, M.Sc and Engineering College. Now the college is run under the expertise of Dr. P. Krishna Rao, Chairman of Pragati Engineering College to improve the capabilities and job potentials of the students.

Ideal Institute of Technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature. In this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to provide to our students. The spirit of innovation, modernization, and student centric teaching- learning are the corner stones of academics at Ideal Institute.

The faculty members strive to promote a sense of enquiry and questioning among their students. The culture at the institute is one of openness, mutual trust and faith most conducive to unconditional commitment to learning. Our faculty colleagues work on a diet of commitment towards excellence. We believe learning shall be a joy and teaching a pleasure.

The institute is committed to generate, disseminate and preserve knowledge, to work with others to bring this knowledge to face the global challenges. We are committed to provide our students an education that combines the rigour of academics and the grind of application along with the excitement of discovery, the zeal to develop in each member of the ideal community the ability and passion to work wisely, creatively and effectively for the betterment of mankind.

The institute extends moral and placement support too. Value based education, mentoring and character building, job oriented short term courses, guest speakers from the industry, visits to industry houses, Entrepreneurship Development Programmes are our main stay. Students live in a unique environment that promotes culture, sports, society, contribution, and above all the self-governance. The institute is always abuzz with new ideas and it is an exciting place to be. If you happen to be a dreamer.

The Institution is having more than 1,50,000 sq. ft. built up area with well established laboratories in each department to cater to the needs of the students. Besides the institution is providing transport facility to the needy and also have good sports and canteen facilities.

A team of well qualified and experienced faculty members mould the young students into future Engineers of world.

## ABOUT THE DEPARTMENT:

The department of Electronics and Communication Engineering was established in the year 2009 and is running successfully with an intake of 60 students. The department is being run with dedicated staff members having an average experience of more than 10 years and teaching. The vision of the department is to achieve more recognition of the department and the institution. The department is well equipped with the state of the art infrastructure in all the laboratories. Our students are performing well in academics and they are also encouraged to participate equally in co-curricular and extra curricular activities. They are also participating in various technical events conducted by other prestigious colleges and universities and won prizes. Students are performing well in competitive exams like GATE, GRE, TOEFL. Some of the students are pursuing PG Programmes in prestigious Institutions like IIT's, NIT's and various universities. A good number of students are being selected by different Multi-national companies like IBM, TCS, CTS, Wipro, Accenture, Infosys and other prestigious companies every year.

## ABOUT THE PROGRAM:

This program offers a practical introduction to the Internet of Things (IoT). It meticulously covers how **Sensors** are used for real-world data collection and acquisition. The core of the program details the various **Connectivity** protocols and networking standards essential for data transfer. It explains the critical function of **Control**, demonstrating how processed data triggers automated system actions.

## Program Report

**Name of the Event :** A one day workshop on “IOT in Real World: Sensors connectivity and control“

**Date/Duration :** 03-02-2025 | 10:00 AM to 05:00 PM

**Resource Person :** Dr. M RAMA KRISHNA REDDY

Assistant Professor, CSE Department,

ADITYA UNIVERSITY, surampalem.

Email: Ramakrishna.chanti@gmail.com.

Contact number: 7680829318

**Name of the Coordinator :** Mr. B Kalyan Ram

**No. of the students attended :** 69

**Objective of the event :** The objective of this event is to introduce participants to real-world IoT concepts. It aims to provide practical knowledge of sensors, connectivity, and device control. The event helps learners understand how IoT enables automation and smart solutions.

**Topics covered :**

- Basics of IoT and real-world application
- Sensor types and their functions
- Connectivity methods used in IoT
- Data flow and simple IoT control systems

**Outcome of the event :**

- Participants will understand the basic concepts and real-world applications of IoT.
- They will gain knowledge about different sensors and their practical uses.
- Learners will understand various connectivity technologies used in IoT systems.

## Program Report

**Name of the Event:** A FIVE DAY WORKSHOP ON 3D PRINTING TECHNOLOGIES.

**Date/Duration:** 03-02-2025 TO 07-02-2025| 10:00AM to 5:00 PM

**Resource Person:** Dr. V.Venkata Kamesh,  
Professor, Dept. of Mechanical Engg., venkatakamesh.vinjamuri@aec.edu.in  
Aditya College of Engineering, Surampalem.

**Name of the Coordinator:** Mr.Ch.Raju, Assistant. Professor.,Mechanical Department.

**No. of the students attended:** 54

### **Objective of the Event:**

- To introduce the core concepts of 3D printing (additive manufacturing) technology, including its history and various processes like FDM, SLA, and SLS.
- To provide practical, hands-on experience in the complete 3D printing workflow, from design to the final product
- To expose participants to real-world and sector-specific applications of 3D printing in industries like aerospace, automotive, healthcare, and construction.

### **Topics covered:**

- 3D printing workshop covers, including the basics of 3D printers and additive manufacturing
- Different printing technologies (like FDM and SLA)
- Workshop includes hands-on sessions and may touch on specific applications like bioprinting or architectural models.

### **Outcome of the event:**

1. Participants gain a clear understanding of the different types of 3D printing technologies, their advantages, limitations, and the appropriate materials used for various applications.
2. Students and professionals are able to operate 3D printers safely and effectively, including setting up print parameters (temperature, speed, infill density, supports) and troubleshooting common issues.
3. Attendees are able to evaluate real-life scenarios and recommend the appropriate use of 3D printing technology for time and cost savings in product development.

## About the College

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honoured philanthropists, educationists, intellectuals and elite of Kakinada such as (Late) P. V. N. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevi Kumar. Ideal Institutions have started from school and blossomed into group of colleges. Ideal Institutions are of its own kind in rendering service to society and value-based education.

During early seventies Kakinada used to have only two colleges. Student community used to suffer a set-back to upgrade their education even to the level of intermediate.

The ideal junior college had been started to cater to the needs of student community. In due course the jr .college flourished into Degree college and P.G courses like M.B.A, M.C.A, M.A, M.Sc and Engineering College.

Now the college is run under the expertise of Dr. P Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students.

Ideal institute of technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature.

In this present era of knowledge and technology driven every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to

provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

The faculty members strive to promote a sense of enquiry and questioning among their students. The culture at the institute is one of openness, mutual trust and faith most conducive to unconditional commitment to learning.

Our faculty colleagues thrive on a diet of commitment towards excellence. We believe that learning shall be a joy and teaching a pleasure

The Institute is committed to generate, disseminate and preserve knowledge to work with others to bring this knowledge to face the global challenges. We are committed to provide our students an education that combines the rigours of academics and the grind of application along with the excitement of discovery.

We seek to develop in each member of the Ideal community the ability and passion to work wisely, creatively and effectively for the betterment of mankind.

The Institute extends moral and placement support too.

Value based education, mentoring and character building, job oriented short term courses, guest speakers from the industry, visits to industry houses, Entrepreneurship Development Programmes are our main stay Students live in a unique environment that promotes culture, sports, society contributions, and above all the self-governance.

The institute is always abuzz with new ideas and is an exciting place to be, if you a happen to be dreamer.

The Institution is having more than 1,50,000 sqft, built up area with well established laboratories in each department to cater to the needs of the students

Besides the Institution is providing transport facility to the needy and also have good sports and canteen facilities.

A team of well qualified and experienced faculty members mould the young students into future Engineers of world.

### About the Department:

The Mechanical Engineering department was established in 2009 with an intake of 60 seats. The lateral entry of students into the department is approximately 20% of the total intake every year. The department comprises well-qualified and experienced faculty, many of whom are alumni of JNTU Kakinada, JNTU Hyderabad, and Andhra University. The faculty continuously strives for Outcome Based Education (OBE) by exploring new frontiers of knowledge, imparting the latest technical expertise to students, and conducting high-quality research, with numerous international publications to their credit. The department is equipped with well-furnished laboratories in core areas such as Thermodynamics, Fluid Mechanics, Mechanical Design, Manufacturing Processes, and Robotics. Additionally, there is a dedicated unit for Mechanical Engineering software, including AutoCAD (2D & 3D), ANSYS, and SolidWorks.

### Objective of the Programme:

- To introduce the core concepts of 3D printing (additive manufacturing) technology, including its history and various processes like FDM, SLA, and SLS.
- To provide practical, hands-on experience in the complete 3D printing workflow, from design to the final product.
- To expose participants to real-world and sector-specific applications of 3D printing in industries like aerospace, automotive, healthcare, and construction.

# IDEAL INSTITUTE OF TECHNOLOGY

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

Date: 04-02-2025

## CIRCULAR

All the II B. Tech (CSE) students are hereby informed that **A Three Days Workshop on Role of "Data Science Using Python"** will be conducted from 06-02-2025 to 08-02-2025. Interested students can enroll their names with Mr. S.V.N.Kumar, Assistant Professor, CSE Department on or before 05-02-2025. The details of topics and resource person are displayed in CSE Department notice board.

Venue: 203- Seminar Hall.

Date: 17-02-2025

## PROGRAM REPORT

**Name of the Event: A Three Days Workshop on Role of “Data Science Using Python”**

**Dates:** 06-02-2025 to 09-02-2025

**Resource Person:** Mr. M.Sreenivasu

Associate Professor, CSE Department, GIET, RAJAHMUNDRY.

Email: msreenuvasu@gmail.com

Contact Number: 980107423

**Name of the Coordinator:** Mr S.V.N.Kumar

**Number of Students attended:** 136

**Venue:** 203- Seminar Hall.

### **Objectives of the Program:**

- To introduce the fundamentals of **Data Science and its industry applications.**
- To teach participants how to use **Python and essential libraries** for data analysis.
- To help learners understand **data cleaning, preprocessing, and visualization techniques.**
- To build foundational knowledge of **machine learning concepts and common algorithms.**
- To provide hands-on experience with **real datasets and ML model building.**
- To guide participants through an **end-to-end mini data science project.**

### **Topics Covered:**

- Introduction to Data Science
- Python for Data Science
- Data Collection & Preprocessing
- Introduction to Machine Learning with Python
- Algorithms (Hands-on Implementation)
- Model Evaluation & Interpretation

# IDEAL INSTITUTE OF TECHNOLOGY

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

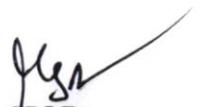

VIDYUT NAGAR, KAKINADA - 533003. (A.P.)

## Outcomes of the Program:

- Understand the **core concepts of Data Science** and its workflow.
- Use Python effectively for **data handling, analysis, and visualization**.
- Work with NumPy, Pandas, Matplotlib, and Seaborn confidently.
- Clean, preprocess, and explore datasets to extract insights.
- Build and evaluate simple **machine learning models** using Scikit-Learn.
- Understand how to choose appropriate ML algorithms for a given problem.
- Perform end-to-end analysis through a **mini data science project**.
- Gain confidence to pursue **advanced Data Science, ML, and AI courses**

**PROGRAMME CONTENT:-**

A Workshop on the Role of “Data Science Using Python” introduces participants to core data science concepts and practical applications using Python. The program covers data handling, basic analysis, and visualization with libraries such as NumPy and Pandas, along with an introduction to machine learning techniques. Through hands-on exercises, learners gain experience working with real-world datasets and understanding data-driven problem solving. The workshop equips participants with foundational skills to apply Python-based data analysis in practical scenarios.

**Resource person:**

**M.Sreenivasu**

Associate Professor, CSE Department,  
GIET, RAJAHMUNDRY.

Contact Number: 980107423

**Organized by**

**Department of CSE**

## **About the College:**

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and Sciences during academic year 2009-2010. The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honoured philanthropists, educationists, intellectuals and elite of Kakinada such as (Late) P. V. N. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevini Kumari. Ideal institutions have started from school and blossomed into group of colleges. Ideal Institutions are of its own kind in rendering service to society and value-based education.

During early seventies Kakinada used to have only two colleges. Student community used to suffer a set-back to upgrade their education even to the level of intermediate. The ideal junior college had been started to cater to the needs of student community. In due course the jr college flourished into Degree college and P.G courses like M.B.A, M.CA, MA, M.Sc and Engineering College.

Now the college is run under the expertise of Dr. P Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students. Ideal institute of technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature in this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

Additionally, this program provides a strong understanding of essential data science tools and techniques using Python, widely applied across various industries. Participants will learn key concepts such as data wrangling, feature engineering, exploratory data analysis (EDA), and basic model evaluation while working with real-world datasets. Through practical exercises and guided projects, learners develop the ability to analyze data, select relevant features, and apply machine learning techniques to derive meaningful insights.

The program also places a strong emphasis on data visualization and effective communication of analytical results. Using Python libraries such as Matplotlib, Seaborn, and Plotly, participants learn to design clear, insightful, and visually appealing charts and dashboards. These skills help learners identify trends, patterns, and relationships within data and communicate findings in a way that supports decision-making. The course highlights how to present insights clearly to both technical and non-technical audiences, enabling participants to transform complex analyses into understandable and actionable conclusions.

Moreover, the course introduces participants to emerging applications of data science, including predictive analytics, pattern recognition, and introductory concepts in areas such as natural language processing and intelligent systems. Learners gain exposure to commonly used machine learning methods and practical workflows, ensuring they are well-prepared to apply Python-based data science techniques to academic projects, industry use cases, and real-world problem-solving scenarios.

## **ABOUT THE DEPARTMENT :**

Computer Science Engineering Department was established in the year 2009 with an intake of 60. The lateral entry of the Department is 20% of the total intake. The Department maintains excellence in its infrastructural and academics.

We feel pride in organizing workshops and seminars to the students and also other colleagues for Update of knowledge and betterment of the society.

Since its inception in the department is offering four year B.Tech degree programs in Computer Science Engineering.

We have 24X7 internet facility with a band width of 20 Mbps to cater the need of the academics and non academic activities.

Our faculty encourages each and every student to pursue research and publish paper in reputed journals and think beyond the box for the technology and the society. We are proud to be member Ideal Group.

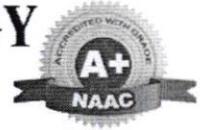

## **About the Program:**

The program emphasizes the integration of Artificial Intelligence (AI) and Data Science in real-world workflows. Participants gain an understanding of how and when to apply AI algorithms, machine learning models, and data science techniques such as data preprocessing, statistical analysis, and data visualization. The course offers practical exposure to working with diverse datasets and addressing real-world problems including predictive modeling, pattern recognition, and data-driven decision making. It also highlights best practices in data preparation, model evaluation, and performance optimization, ensuring accuracy, reliability, and interpretability in practical AI and data science applications.

Date : 21-03-2025

## Program Report

**Name of the Event:** A TWO DAY WORKSHOP ON HEAT EXCHANGERS.

**Date/Duration:** 18-03-2025 TO 19-03-2025| 10:00AM to 5:00 PM

**Resource Person:** Dr. G. Prasad, Assistant Professor, Dept. of Mechanical Engg.

V.S.M college of engineering. Ramachandrapuram.

[drprasadgampala@gmail.com](mailto:drprasadgampala@gmail.com), ph:7075072292.

**Name of the Coordinator:** Ms.B.Uma Venkata Jyothi, Assistant. Professor. ,Mechanical Department.

**No. of the students attended:** 51

### **Objective of the Event:**

- To provide a clear understanding of the principles of heat transfer (conduction, convection, radiation), hydraulics, and fluid flow.
- To enable participants to differentiate between various types (shell and tube, plate, air-cooled, etc.) and select the most suitable exchanger for specific industrial applications.
- To make participants aware of technologies and best practices for improving the performance, efficiency, and cost-effectiveness of heat exchange equipment.

### **Topics covered:**

- Design and Fundamentals
- Operation and Maintenance
- Performance and Inspection

### **Outcome of the event:**

1. The ability to apply best practices in design and operation results in measurable improvements in energy efficiency and waste heat recovery.
2. Effective maintenance and troubleshooting skills help lower life cycle costs, minimize energy consumption, and avoid expensive failures.
3. Participants gain the knowledge to make informed decisions regarding repairs vs. refurbishment, material selection, and design choices.

## About the College

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honoured philanthropists, educationists, intellectuals and elite of Kakinada such as (Late) P. V. N. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevini Kumari. Ideal institutions have started from school and blossomed into group of colleges. Ideal Institutions are of its own kind in rendering service to society and value-based education.

During early seventies Kakinada used to have only two colleges. Student community used to suffer a set-back to upgrade their education even to the level of intermediate.

The ideal junior college had been started to cater to the needs of student community. In due course the jr .college flourished into Degree college and P.G courses like M.B.A, M.C.A, M.A, M.Sc and Engineering College.

Now the college is run under the expertise of Dr. P Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students.

Ideal institute of technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature.

In this present era of knowledge and technology driven every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to

provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

The faculty members strive to promote a sense of enquiry and questioning among their students. The culture at the institute is one of openness, mutual trust and faith most conducive to unconditional commitment to learning.

Our faculty colleagues thrive on a diet of commitment towards excellence. We believe that learning shall be a joy and teaching a pleasure

The Institute is committed to generate, disseminate and preserve knowledge to work with others to bring this knowledge to face the global challenges. We are committed to provide our students an education that combines the rigours of academics and the grind of application along with the excitement of discovery.

We seek to develop in each member of the Ideal community the ability and passion to work wisely, creatively and effectively for the betterment of mankind.

The Institute extends moral and placement support too.

Value based education, mentoring and character building, job oriented short term courses, guest speakers from the industry, visits to industry

houses, Entrepreneurship Development Programmes are our main stay Students live in a unique environment that promotes culture, sports, society contributions, and above all the self-governance.

The institute is always abuzz with new ideas and is an exciting place to be, if you happen to be dreamer.

The Institution is having more than 1,50,000 sqft. built up area with well established laboratories in each department to cater to the needs of the students

Besides the Institution is providing transport facility to the needy and also have good sports and canteen facilities.

A team of well qualified and experienced faculty members mould the young students into future Engineers of world.

## About the Department:

The Mechanical Engineering department was established in 2009 with an intake of 60 seats. The lateral entry of students into the department is approximately 20% of the total intake every year. The department comprises well-qualified and experienced faculty, many of whom are alumni of JNTU Kakinada, JNTU Hyderabad, and Andhra University. The faculty continuously strives for Outcome Based Education (OBE) by exploring new frontiers of knowledge, imparting the latest technical expertise to students, and conducting high-quality research, with numerous international publications to their credit. The department is equipped with well-furnished laboratories in core areas such as Thermodynamics, Fluid Mechanics, Mechanical Design, Manufacturing Processes, and Robotics. Additionally, there is a dedicated unit for Mechanical Engineering software, including AutoCAD (2D & 3D), ANSYS, and SolidWorks.

## Objective of the Programme:

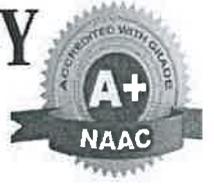

- To provide a clear understanding of the principles of heat transfer (conduction, convection, radiation), hydraulics, and fluid flow.
- To enable participants to differentiate between various types (shell and tube, plate, air-cooled, etc.) and select the most suitable exchanger for specific industrial applications.
- To make participants aware of technologies and best practices for improving the performance, efficiency, and cost-effectiveness of heat exchange equipment.

## PROGRAM REPORT

**Name of the Event: A Two Days Workshop on Role of "FULL STACK DEVELOPMENT"**

**Dates:** 26-03-2025 to 27-03-2025

**Resource Person:** Smt. K. ROJARANI

Associate Professor, AI&ML Department, Aditya College of Engineering,  
Surampalem.

Email: rojarani504@gmail.com

Contact Number: 9652151183

**Name of the Coordinator:** Smt R.V.V.G.LAKSHMI

**Number of Students attended:** 72

**Venue:** 203- Seminar Hall.

### **Objectives of the Program:**

- To provide a **complete understanding of full-stack development**, covering both frontend and backend.
- To teach participants how to **build functional and responsive user interfaces**.
- To help learners understand how to **create REST APIs and handle server-side logic**.
- To introduce **databases and CRUD operations** for real-world applications.
- To enable participants to **integrate frontend and backend** into a working full-stack application.
- To provide hands-on experience with **tools such as Git, GitHub, Node.js, and a frontend framework**.
- To guide participants in building an **end-to-end full-stack project**.

### **Topics Covered:**

- Frontend Development,html,css, JavaScript.
- Backend Development
- Full-Stack Integration
- Deployment & Tools
- Mini Project (End-to-End)

**PROGRAMME CONTENT:-**

This program focuses on the fundamentals and advanced concepts of Web and App Development, equipping learners with the skills to design, develop, and deploy modern web and mobile applications. Participants will learn about front-end and back-end development, application architecture, and key frameworks and tools. The course covers essential development practices including responsive design, database integration, API connectivity, and deployment strategies, ensuring learners can create scalable, maintainable, and high-performance applications.

## About the College:

Ideal Institute of Technology was established under the aegis of Governing Body of Ideal college of Arts and Sciences during academic year 2009-2010. The educational Society of Ideal Institutions has been rendering yeoman service in the glorious field of education for the past 40 years.

The Education Society is the outcome of honoured philanthropists, educationists, intellectuals and elite of Kakinada such as (Late) P. V. N. Raju, Dr. N. S. R. Sastry, Dr. P. Chiranjeevini Kumari. Ideal institutions have started from school and blossomed into group of colleges. Ideal Institutions are of its own kind in rendering service to society and value-based education.

During early seventies Kakinada used to have only two colleges. Student community used to suffer a setback to upgrade their education even to the level of intermediate. The ideal junior college had been started to cater to the needs of student community. In due course the jr college flourished into Degree college and P.G courses like M.B.A, M.C.A, MA, M.Sc and Engineering College.

Now the college is run under the expertise of Dr. P. Krishna Rao, Chairman of Pragati Engineering College to improve the Capabilities and Job potentials of the students. Ideal institute of technology is one and only institute which is located in the midst of Kakinada amid mango groves in the lap of Nature in this present era of knowledge and technology driven economy, globalization and liberalization, every employer and the industry house seeks employees to be productive and possess skills, competence and values. This is exactly what we at Ideal Institute endeavor to provide to our students. The spirit of innovation, modernization and student-centric teaching-learning are the corner stones of academics at Ideal Institute.

## ABOUT THE DEPARTMENT :

Computer Science Engineering Department was established in the year 2009 with an intake of 60. The lateral entry of the Department is 20% of the total intake. The Department maintains excellence in its infrastructural and academics.

We feel pride in organizing workshops and seminars to the students and also other colleagues for Update of knowledge and betterment of the society.

Since its inception in the department is offering four year B.Tech degree programs in Computer Science Engineering.

We have 24X7 internet facility with a bandwidth of 20 Mbps to cater the need of the academics and non academic activities.

Our faculty encourages each and every student to pursue research and publish paper in reputed journals and think beyond the box for the technology and the society. We are proud to be member Ideal Group.

## About the Program:

This program provides a comprehensive understanding of Full Stack Development, equipping learners with the skills to design, build, and deploy complete web applications. Participants explore both front-end and back-end development, including user interface design, server-side logic, and database integration, while gaining hands-on experience in creating responsive and functional applications. The program also covers popular development frameworks, coding best practices, and version control tools to ensure scalable and maintainable solutions. In addition, learners are introduced to application testing, deployment workflows, performance optimization, and integration with APIs and cloud-based services, preparing them for real-world full stack development environments.
