Ideal Institute of Technology conducted a Programme on Communication Skill's Training for II B.Tech by Dr.N Surekha Communication Skill's Trainer from 16.09.2019 – 21.09.2019.

The need for effective communication is becoming all the more essential. Professionals face the challenges of communicating effectively and efficiently in their workplace. While students feel the need for communicating fluently and confidently through oral and written media in their academic tasks daily, The importance of English also lies in the selling of engineers' designs. The fact is that most of the techniques developed for solving a same problem would be similar or at least not easily distinguishable. Thus, Engineers need the skill to sell the best points of the design, to make people believe in the value of his/her design.

Around 143 students have attended this innovative program. This programme was helpful in building strong relationship and better understanding among students and peers. Students were grateful for the session and are eagerly anticipating many more such programmes in future.
